

## MEDIA ALERT

### Facilis Shared Storage Reinforces 4K+ Workflows at NAB 2014

Hudson, MA (April 03, 2014) – At the National Association of Broadcasters (NAB) Convention 2014 from April 7-10, [Facilis Technology](#) will exhibit its recently expanded line of TerraBlock shared storage solutions – including the 24D, 24EX/16, 24EX/12 and 24EX/8 – which support a wide range of creative workflows from compressed HD through to 4K and beyond. Visitors to the Facilis booth (#SL7610) will also see TerraBlock 6.0 powering highly-collaborative post production and content creation workflows as it interoperates with the industry's best-of-breed ingest, archive, encoding and asset management solutions.

#### **TerraBlock 6.0: Advancing Creative Capabilities**

The newest software update to Facilis' multi-platform, high-capacity shared storage solution supporting 8/16Gbps Fiber Channel and 1/10Gbps Ethernet, TerraBlock 6.0 facilitates powerful multi-stream camera RAW playback for ARRI, F65 and RED EPIC, as well as support for 2K and 4K DPX. Adding a customizable GUI, LDAP/Active directory user account synchronization, volume size reduction and qualification for Adobe® Anywhere® for Video, TerraBlock 6.0 allows creative professionals to do it all by augmenting usability, collaboration and performance.

#### **Enhanced Workflow Flexibility Through Partner Product Qualifications**

To cater to the needs of small and large creative facilities alike, Facilis has teamed up with axle, Cache-A, Cantemo, CatDV, Cinedeck, eMAM, FocalPoint, MOG, QStar, Storage DNA, Telestream and VSN to offer TerraBlock support for several industry-leading ingest, archive, encoding and asset management solutions. NAB attendees can visit a designated partner kiosk in Facilis' booth to view information on TerraBlock 6.0 working with these products.

For more information and pricing on TerraBlock, visit Facilis in booth #SL7610 at NAB 2014 and book a demo for a chance to win a GoPro Hero3+.

#### **About Facilis Technology**

Founded in 2003, Massachusetts-based Facilis Technology, Inc. designs and builds affordable, high-capacity, turnkey shared storage and archiving solutions for post production and content creation professionals working in the film, television, education and audiovisual markets. Its production-proven solutions are fast and intuitive – making it easier for creatives to collaborate and work more efficiently. Flexible, scalable and compatible with industry-standard creative systems, Facilis' technology blends seamlessly into any studio environment – boutique, mid-size or large – and has been installed in more than 2000 facilities worldwide to date. <http://facilis.com/>

#### **About TerraBlock**
