Facilis Technology Gives UK Debut to TerraBlock Version 6.1 at BVE

HUDSON, MA (February 4, 2014) – At BVE, Facilis (Stand R30), a leading international supplier of cost-effective, high performance shared storage systems and dynamic workflow solutions for the film, broadcast and AV markets, will showcase the latest update for its TerraBlock shared storage system for content creation and post production. Originally previewed at the IBC last September, TerraBlock V6.1 is now shipping worldwide. Version 6.1 includes performance enhancements as well as improved interoperability with third party applications.

One such integration involves archive and data management applications with partner company, Storage DNA who will showcase its technology running together with TerraBlock at BVE.

"Over 10 years, Facilis has evolved a technology platform that helps facilities and broadcasters expand their creative capabilities while also simplifying day-to-day operations," commented Al Rao, VP Sales at Facilis. "TerraBlock Version 6.1 is a reflection of our ongoing efforts, and we believe it will be well received in the UK where we have a large and dynamic user community."

Key features found in TerraBlock V6.1 include:
• Support for Apple® OSX Yosemite 10.10
• Qualification of RED EPIC DRAGON® 6K workflows
• Qualification for NewTek TriCaster Capture to Multi-user Write volumes
• Volume Monitor for tracking available space and locating volumes
• Support in LDAP/Active Directory for nested groups and users across Organization Units (OU's)
• Apple® Final Cut Pro® X 10.1.3 support for Multi-user Write Libraries
• Shared File System performance and compatibility enhancements
• Qualified Sonnet Twin 10G Thunderbolt™ 2

Facilis TerraBlock is a multi-platform, high-performance shared storage solution built for post production and content creation. Flexible connectivity options include 8/16Gbps Fibre Channel

and 1/10Gbps Ethernet through Facilis' Shared File System. TerraBlock shared storage enables collaborative workflows with all popular editing platforms and supports a wide range of industry-standard creative applications and formats including full 4K DPX

TerraBlock V6.1 is available today to customers holding a current support contract. For a complete list of features and additional information, drop by Facilis' BVE stand #R30 or visit: www.facilis.com.
